EXPERIENCE

Meetsmore Inc., Tokyo - Web Engineer Intern - *Software Engineer Intern*

October 2021 - PRESENT

Meetsmore is a platform that allows you to request professional services for anything from lifestyle services to business services. Meetsmore has about 250 employees including 25 engineers. Codebase size is about 700000 lines in about 4500 files in the web app repo.

www.meetsmore.com

Meetsmore iOS App for Requesters

This app is made for requesters to provide better experience creating requests. All the functionality is the same as the web except it is made natively for iOS.

<https://apps.apple.com/jp/app/ミツモア-事前見積もりでプロが選べる/id1613928734>

Technologies: **TypeScript, Expo (React Native), Redux, jest, Git (Github)**

- Responsible for implementing the UI, web view implementation, implementing hooks to ensure integration of native back button and embedded webviews, writing unit tests.
- Developed the native login functionality and integrated with backend API and 3rd party services (e.g LINE).

Meetsmore Web App

The meetsmore webapp is the primary mode of interacting with the service. First, you will choose the service you want and answer simple questions. You will receive messages from up to 5 pros with an estimate price. Then, you will be able to chat with them and choose the best pro that suits your needs.

Technologies: **TypeScript, React, Redux, node.js, nest.js, jest, mongoDB, Git (Github)**

- Responsible for implementing designs, development of new features (frontend, backend, database)
- Responsible for developing admin tools page.
- Responsible for scraping data with puppeteer to collect data to create a new service, and find new pros to promote our product. Data includes list of SaaS products (e.g. accounting software, web conferencing software, chat software, etc), list of companies in certain area that are not using meetsmore.

MIC Management Inc., Tokyo - Part-time Engineer

June 2020 - March 2021

Mission of MIC Management is to support medical institutions and nursing care facilities that play a key role in community healthcare with the power of ICT and other technologies.

- Participated as part of a team on a project for making better electronic medical records using HL7 FHIR and **React**.

BrightCore, Inc., Tokyo - Junior Robotics Engineer/Junior Web Engineer

October 2019 - September 2020

- Responsible for implementing blog page on company's website using **React**.
 - <https://www.brightcore.ai/blog>
- Assisted in developing tablet app for sending orders to UR robot using **React Native**.
